PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience building web applications, REST APIs, and enterprise systems using Java, Spring Boot, Angular, React, Node.js, and PostgreSQL. Experienced in Agile development, cloud technologies, and scalable software solutions. Seeking Full Stack Engineering opportunities in Ireland.

EXPERIENCE

AVANADE | Full Stack Developer | 2025 – Present

- Developed and maintained enterprise applications used by 1,500+ employees across multiple business units using **Angular, TypeScript, Java, Spring Boot, Node.js, PostgreSQL, and Azure DevOps**.
- Designed and implemented 25+ **REST APIs** with **Java Spring Boot** and **Node.js**, reducing integration time between systems by 40%.
- Collaborated within Agile teams delivering software releases every two weeks using **Git, CI/CD pipelines, Azure DevOps, and Docker**, while maintaining 99.9% system availability.

SENAI Institute for Innovation (ISI-TICs) | Full Stack Developer | 2023 – 2025

- Developed and maintained **Frevo**, an internal management platform supporting 300+ researchers and staff using **Angular, TypeScript, Java, Spring Boot, PostgreSQL, and Docker**.
- Built 20+ REST APIs and database integrations using **Spring Boot, PostgreSQL, and JPA/Hibernate**, reducing manual operational processes by 50%.
- Improved application performance by 35% through backend optimization, SQL query tuning, and architectural improvements.

DATA PRIORITY | Full Stack Developer | 2022 – 2023

- Developed business intelligence and data visualization solutions processing 100,000+ records monthly using **React, JavaScript, Node.js, PostgreSQL, and REST APIs**.
- Built interactive dashboards and reporting tools using **React, HTML5, CSS3, and Chart Libraries**, supporting 50+ business stakeholders.
- Implemented API and database integrations using **Node.js, PostgreSQL, and Git**, reducing report generation time by 60%.
